ADVANCE PRAISE FOR
THE
PROBABILITY
OF GOD

“Stephen D. Unwin has pulled off the seemingly impossible - a profound and instructive discussion of God delivered in an entertaining, witty and no-nonsense style. His quirky prose conceals a wealth of information about science, religion and the grounds for rational belief.”

-- **Paul Davies**,
Templeton Prize
winner and author
of *The Mind of God*
and *The Cosmic
Blueprint*

“This book is very bad news for anyone planning a career in Evil. Engaging, witty, concise and clear, Dr. Unwin's book achieves two impossible things: it makes Theology and Probability Theory accessible to humans.”

-- **Rob Grant**,
creator of the "Red
Dwarf" television
series and author
of *Backwards*
