

“Quality ~~F~~first, Customers ~~F~~first, Reliability ~~F~~first” is the motto ~~that~~ Tianjin Assay Electric Company lives by. Located in the Tianjin Economic-Technological Development ~~a~~Area of China, the company has been in operation since Jan~~uary~~ 17, 2002. We ~~awere~~ ~~invested~~ ~~100 percent%~~ ~~invested~~ by Taira Denki Company of Shizuoka, Japan.

We sell and manufacture highly efficient electric contacts, high~~-~~quality kashime products ~~forof~~ electric contacts, and ~~spot-welded~~ products ~~that are processed with spot welding~~. We are able to produce all types of electric contacts from a wide variety of materials. Our product line includes electric contacts for automobiles, air-conditioners, thermostats, cellular phones and battery chargers for cellular phones, microwave ovens, and relays. Upon request, we can also create rivet contacts from AgNi, AgPd, AgCdO, AgSnO, AgCu, AgZnO, and AgSnO~~-~~InO. Since we make those alloys for rivet contacts from scratch, our contacts are the highest quality and can be produced with total control throughout the entire manufacturing process.

Our company uses the same ~~superiorbest~~ technology as Japan. ~~O,~~ ~~but~~ our goal is to research and develop a superior~~-~~quality electric contact that is longer~~-~~lasting ~~yet~~ less costly. We work very hard to meet the varying needs of ~~all of~~ our customers ~~-~~ ~~m;~~ ~~most~~ of ~~whomthem~~ are from the electrical product, automotive, and IT industries.

We invite you to contact us with any questions, and we look forward to supplying your needs.
